## Create Tiburon 2040

### Register for Next Community Workshop

Registration is now open for the next General Plan community workshop on **Safety, Parks, and Open Space**. This is the second of a series of five workshops planned this year for an update of the Town's General Plan. The virtual workshop will be held on **Tuesday, March 30 from 6-8 p.m.** The workshop will feature a presentation, survey questions, and an interactive breakout session that explores questions such as:

- How can the Town reduce wildfire risk?
- How can the Town better prepare for emergencies?
- Are there specific undeveloped open space areas that should be priorities for acquisition or public easements?
- Are there specific park or trail improvements that should be priorities?
- Is there sufficient access to recreational facilities and programs?

In addition to Town staff and the consultant team, the following subject matter experts will be available to present material related to fire safety and/or answer questions:

- Mike Lantier, Deputy Fire Marshal, Tiburon Fire Protection District
- Fred Hilliard, Division Chief/Fire Marshal, Southern Marin Fire District
- Laurie Nilsen, Tiburon Office of Emergency Services

[Register for the Workshop](#)

### Sea Level Rise Survey Launched

The Town has launched a new survey on Adapting to Sea Level Rise, which seeks your input on how Tiburon should respond to rising seas in the three areas explored at the March 2 community workshop: the Downtown area, the Blackie's Pasture area, and the Greenwood Cove area.

With seas predicted to rise by as much as 5 feet by the end of the century - and maybe

more - this is a critical issue for the General Plan to address as we think about how to adapt our existing homes, businesses, roads, and critical infrastructure and facilities to rising seas and plan new development.

If you were unable to attend the workshop, or if you'd like to provide additional comments or input on the two areas not discussed in your breakout session, here is your opportunity to help shape Tiburon's future!

## Marin County Moves to Orange Tier

The State of California [has announced](#) that Marin County will be moving from "red" to "orange" status in the Blueprint for a Safer Economy during the COVID-19 pandemic, effective Wednesday, March 24, 2021.

The move from tier 2 or "substantial risk" status to the less restrictive tier 3 or "moderate risk" level is based on consecutive weeks of progress in Marin's coronavirus case statistics.

The primary changes allowed under the state order as Marin moves into tier 3 are:

- **Retail & grocery stores:** can expand indoor capacity to 100%
- **Restaurants** – indoor dining: can expand indoor capacity to 50% or 200 people (whichever is fewer)
- **Museums & movie theaters:** can expand indoor capacity to 50% or 200 people (whichever is fewer)
- **Houses of worship:** can expand indoor capacity to 50% or 200 people (whichever is fewer)
- **Weddings/funerals:** can expand indoor capacity to 50% or 200 people (whichever is fewer)
- **Family recreation / entertainment facilities:** can expand indoor capacity to 25%
- **Gyms & fitness studios:** can expand indoor capacity to 25% and reopen indoor pools.
- **Breweries/wineries that do not serve food:** can expand indoor capacity to 25% or 100 people (whichever is fewer)
- **Bars that do not serve food:** can operate outdoors only
- **Non-essential offices may reopen** (but working remotely is still encouraged)
- **Higher education:** can expand indoor capacity to 50% for indoor lectures

Sector guidance is available on [MarinRecovers.com](https://www.marinrecovers.com).

Continued diligence to prevent the spread of COVID-19 in the community is important. Public Health emphasizes the importance of mask wearing, physical distancing, and frequent handwashing in public, and to consider COVID-19 testing prior to travel outside of the Bay Area, and quarantining after return. [Free, same-day COVID-19 testing](#) is available across Marin County.

Meanwhile, vaccinations continue throughout the county. Visit Public Health's [vaccination webpage](#) for the latest information on vaccine availability, eligibility, distribution data, and guidance on how to get an appointment.
