Construction Alert - Road Work on Tiburon Boulevard This Week

On Wednesday 4/19, there will be another detour in place on Tiburon Boulevard between Rock Hill Road and Avenida Miraflores as PG&E works to install new underground electric infrastructure as part of the Hawthorne Utility Underground Project.

The detour will be in place beginning at approximately 8:30 a.m. tomorrow. School buses will be permitted through the work area. Other traffic will be routed through the adjacent neighborhoods in an attempt to minimize backups. Emergency vehicles, public transit, and traffic local to the area (Palmer Court, McCart Court, Bayshore Terrace, Belvedere Tennis Club) will be able to access the area normally.

Although contractors and town staff will make every attempt possible to have the work completed in the most expeditious manner possible motorists should plan to expect backups and longer than normal travel times through the area.

The Department of Public Works appreciates everyone's patience and understanding as this critical infrastructure project progresses through the next phase of construction.
