Happy Holidays from Tiburon Town Hall!

Tiburon Town Hall will be closed for the winter holidays beginning Tuesday, December 24, 2024 and will resume regular working hours on Monday, January 6, 2025.

Scroll down for information about how this affects your building project.

During the closure, the Building Official will allow architects to inspect architectural building features and engineers to inspect engineered building features. This option will expire on January 2, 2025, and is permitted for all construction, excluding foundations, which need to be verified by the Building Division for property line setback requirements.

A daily report must be compiled for each inspection by the design professional with their name, signature, a complete description of the work, and the location of the work. Please submit all reports by the design professional no later than January 6, 2025. Please be advised that additional inspections may be required as deemed necessary by the Building Official.

Construction work is not permitted on December 25 and January 1.

Additionally, all construction sites are required to implement erosion control and winterization of sites during the rainy season (October 15 through May 1). Learn how to winterize your site [here](#).

Are You Storm Ready?

Multiple storms systems are forecasted to impact Marin County in the coming days and the second half of next week.

This weekend's storms are likely to saturate the soil, creating conditions for quicker and more significant flooding by the time Monday's storm arrives, with heavier rain, high wind gusts, and higher waves in coastal areas.

Take steps **now** to prepare for flooding, power outages, and other storm related challenges. Sand and sand bags are available at Blackie's Pasture and Teather Park; please help yourself.
