YELLOW BUS CHALLENGE UPDATE

Greetings from Town Hall. With Spring in full bloom on the Tiburon Peninsula, many of our residents, particularly those with school-aged children, are beginning to think about the upcoming Summer.

Before that however, I would like to encourage you to spend a few minutes thinking about the beginning of the next school year.

As you know, traffic congestion, particularly along Tiburon Boulevard, is an important focus for our community. The Yellow Bus Challenge - a collaborative effort between Tiburon, Belvedere, Reed Union School District (RUSD) along with many, many parents - led to a significant increase in bus ridership this year. In fact, 44% of RUSD students rode a bus to or from school in the 2015-16 school year, leading to a dramatic reduction in traffic on Tiburon Boulevard. We should be proud our community has blazed a trail other communities in Marin are beginning to follow.

However, we know from our parent survey results the pilot program was not perfect. Delays and inconsistent communication have been too frequent. We share your concerns and have been working hard to make improvements for 2016-17, including the following:

1. Tiburon, Belvedere and RUSD have formed a Joint Powers Authority (JPA) to more efficiently manage the program in the future.
2. The JPA will be partnering with Marin Transit, who will oversee day-to-day operations and act as the conduit between the bus provider and parents.
3. We are working to develop a tracking app, which will allow parents to track buses in real time and receive push notifications about delays. We are planning to test the app on select routes in May and June and have it fully operational by the beginning of the 2016-17 school year.
4. We continue to optimize routes to minimize travel times, and improve on-time arrivals in both the morning and afternoon. Notably, we are taking steps to improve the departure time of the

ELECTION DAY POLL WORKERS NEEDED

Want to earn money while serving your community?

Be a poll worker for the June 7 Presidential Primary Election.

People you can speak both English and one of the following languages are needed: Chinese, Korean, Vietnamese, and Spanish.

Del Mar afternoon buses.

5. Routes remain campus-specific so that students can ride along with others from their school.

Bus passes for the 2016-17 school year will be on sale Monday, May 2 at 9:00 AM. Passes can be purchased on line at www.buschallenge.org.

Here you will also find detailed information on the available routes as well as answers to frequently asked questions. Seats will be allocated on a first-come, first-served basis, and some routes will likely sell out, so please do not delay in making your bus pass purchase.

The cost for a *one-way* annual pass is \$275.00. This is an increase in cost from the current year, but still significantly less than the cost of passes prior to the Yellow Bus Challenge. Contributions from Tiburon, Belvedere and RUSD continue to make this subsidized rate available.

In addition, this year we have received generous grants from both the Belvedere Community Foundation and the Tiburon Peninsula Foundation, and we continue to explore funding sources from a variety of other sources.

Thank you for supporting the Yellow Bus Challenge, and we look forward to an even more successful program in the coming year.

Sincerely,

Greg Chanis
Town Manager

NEWS BRIEFS

JUNE 7 ELECTION - ARE YOU REGISTERED TO VOTE?

The June 7 election, most widely known as the Presidential Primary, is almost here.

Some important information about voter registration and voting in the election follows.

Voter Registration Deadline

May 23 is the last day to register to vote. You must be 18 years of age or older on Election Day to vote in this election. You can register to vote [online](#) or by obtaining a voter registration form at the Marin County Elections Department, 3501 Civic Center Drive, Suite 121, San Rafael, CA 94903. We also have forms here at Town Hall.

How do I Vote for my Candidate of Choice?

Contact Colleen
Ksanda at Marin
County Elections,
415-473-6439, or
Norleen Kocen,
415-473-6438.

All registered voters can vote in a primary election. But voting for a presidential candidate depends on the party with which you are registered. If you are registered with a political party, you can vote for a candidate running for President in that party. The political parties are: American Independent, Democratic, Green, Libertarian, Peace and Freedom, and Republican.

If you are registered as "No Party Preference", you can vote in this election for one of the following parties:

- American Independent
- Democratic
- Libertarian

If you are registered as "No Party Preference" and want to vote for one of the following political parties:

- Republican
- Peace & Freedom
- Green

You must re-register to vote for that party by May 23, 2016.

"Absentee" voting: Vote-by-Mail ballots

If you want to obtain a Vote-by-Mail Ballot, contact the Marin County Elections Department at 415-473-6456 or [online](#). May 31 is the last day the Elections office can mail a vote-by-mail ballot to you. After this day, voters wishing to vote by mail must get a ballot in person at the elections office.

Voting Early

Some counties (including Marin County) offer early voting the Marin County Elections office at the Civic Center, Room 121. Early voting starts on May 9.

Election Day Voting

On June 7, Election Day, polls are open from 7 a.m. to 8 p.m. Check your sample ballot for the location of your polling place (or go [online](#) to view your sample ballot).

Vote-by-mail ballot envelopes must be signed and postmarked on or before this day. However, voters can drop their vote-by-mail ballots (in their signed envelopes) at the Elections Office - or any polling place - on Election Day.

Sincerely,

Diane Crane Iacopi
Town Clerk

**PUBLIC WORKS SUMMER PROJECTS: STREET
CLOSURES AFTER JUNE 13**

This summer there will be two Town construction projects that will affect traffic in various locations, starting in June.

Mariner Way Storm Drain

This project will affect traffic on Mariner Way and on Tiburon Boulevard between Mar West and Lyford Drive. The work on Tiburon Boulevard will not begin until after the end of the school year.

Slurry Seal Project

Last year there was a project to repair potholes and failing sections of roadway on 30 roadway segments around the Town. We noted then that a different contractor would be returning this year to slurry seal those road segments*.

What is a Slurry Seal?

Slurry seal is applied in a thin coat and takes time to dry. Affected roadway segments need to be closed during the slurry process until the slurry has dried. This operation can take a few hours and is weather dependent.

If you drive across slurry before it has set you will (1) Damage the slurry, (2) Splatter your car with asphalt and (3) Track it onto your driveway.

It is important that you obey all flaggers, for the above reasons, and for the safety of the workers.

The major slurry work is currently planned to start June 13 and last two weeks. Work on any one road segment will take between a half day and two days, depending on the segment size, and whether the road needs to be slurried on one side and then the other.

Notices will go out in advance of the slurry work. Roads will also be posted for "No Parking" for the day the slurry will occur. As in every construction project, schedules are subject to change.

Please remove your cars from the roadway early in the day to avoid delaying the contractor, as this will impact the schedule, as well as your neighbors.

Finally, if you have vegetation that extends into the street please cut it in back of the curb prior to June 13th.

Thanks for your cooperation in both of these important projects that both enhance and maintain our community's infrastructure.

Sincerely,

Patrick Barnes, Director of Public Works/
Town Engineer

MMWD GRAYWATER ORDINANCE

New regulations adopted by the the Marin Municipal Water District (MMWD) will help further reduce the demand on our water supply during the current drought and beyond.

On November 3, 2015, the Marin Municipal Water District adopted an ordinance amending Title 13 of its Code to add a section on "Graywater Recycling Systems". The ordinance went into effect on February 1, 2016.

What is Graywater?

Graywater includes wastewater from bathtubs, showers, bathroom sinks, and clothes washers. Instead of sending this water down the drain, graywater systems divert water from these sources for reuse on site, most commonly for landscape irrigation.

In addition to saving water, graywater reuse can provide other benefits for customers, including a reliable source of irrigation water during drought and greater awareness of water use. Keeping graywater on site also lessens the burden on local sewer systems.

MMWD's ordinance targets new construction and remodels because installation of graywater plumbing and irrigation systems is most cost effective at these times. The additional costs to connect drain lines from showers, bathroom sinks, and laundry facilities is realitively small compared to overall construction costs.

Graywater systems are governed by California Plumbing Code as well as Marin County and local jurisdictional codes. Under state code, graywater does not include wastewater from kitchen sinks or dishwashers, or water contaminated by any toilet discharge.

Rebates for Laundry Systems

MMWD is promoting graywater reuse for all customers via rebates of up to \$50 for laundry-to-landscape graywater systems. Basic

laundry-to-landscape systems typically don't require permits and require minimal alteration to existing plumbing, making them one of the simplest, least expensive ways to "go gray."

New Buildings and Remodel Projects Need On-Site Systems

Applicants requesting water service for a new residential or commercial structure, or an enlarged water service for a "substantial remodel" to an existing residential or commercial structure, are required to install a graywater recycling system on site.

If you are looking into building a new home or planning a major remodel, please contact MMWD during the beginning stages of your development to make sure you comply with these new regulations.

For more detailed information, please contact the Marin Municipal Water District at 415-945-1455, or visit the District's [website](#).
