SPECIAL BULLETIN

UPCOMING TRAFFIC IMPACTS FROM CONSTRUCTION

The **Town's Safe Routes to School Project**, which will provide pedestrian and bicyclist safety improvements, commences at the end of this week (around Feb 11). The contractor will be disrupting the in-ground traffic loop detectors where Avenida Miraflores intersects Tiburon Blvd. for a period of two weeks to perform the required work.

Town Staff will work with Caltrans' signal technicians to minimize impacts as much as possible while the traffic signal defaults to a fixed length timing cycle for the duration of this work. The last time this occurred, which was over the summer for the major pavement overlay project, we experienced some traffic delays; fortunately, this time it will only occur at a single intersection. If you have any questions, please contact the Town's construction management team at 650-504-3325.

Nicholas T. Nguyen, P.E.
