Join us for a series of important and meaningful discussions to help our Tiburon Police Department partner with our community for the purpose of co-creating an integrated and effective response to policing and community engagement.

Officers and officials from the Tiburon Police Department, along with Police Chief Monaghan, will be meeting with community members from different sectors in our community to engage them in meaningful conversations and learn best how to serve their policing needs.

To launch our *Living & Growing Together Series* we will be hosting a live webinar to discuss the specifics of this project followed by 4 separate community circles where individuals from different sectors in our community will have the opportunity to sit with Tiburon Law Enforcement to have a facilitated dialogue about policing in our town. At the live webinar, we will explain this project more fully and answer any questions you may have.
