

FOR TOWN COUNCILMEMBER

JON WELNER

Age: 55

Occupation: Tiburon Town Councilmember

As your Mayor and Councilmember, I am working hard to preserve the many things that make Tiburon such a wonderful community. All of the things that make our Town special—the natural beauty and open space, the village atmosphere and community gatherings, the civility and thoughtfulness with which we treat each other—all of these things require our continual effort to preserve and grow.

My wife and I have lived in Tiburon for nearly 20 years, and we have raised our three children in this beautiful community. I am deeply honored to have served on the Town Council over the last five years, and previously on the Planning Commission for over six years.

We have achieved a great deal. Our downtown is thriving and growing—with exciting new restaurants and stores opening for us to enjoy. Our amazing new library is opening soon. Our budget is balanced and our reserves are healthy. We are taking innovative steps to address critical issues like climate change. And we have launched an important diversity and inclusion initiative to ensure our community is open and welcoming to all.

I am eager to continue this important work.

I would be honored to have your vote.
