

Occupation: Vice Chair, Tiburon Parks, Open Space & Trails Commission; Strategic Advisor, Technology Business Development & Consulting

Our family was drawn to Tiburon's beautiful Open Space, excellent schools and safe community. After 11 years, 3 children (one at Redwood High School and two in the Reed Union School District), I am ready to give back even more to my community.

As former Chair (current Vice-Chair) of the Tiburon Parks, Open Space and Trails Commission, I've spent five years working hard to preserve Tiburon's Open Space and improve our Parks. During COVID-19, I ensured our residents could use our Parks and Open Spaces, as they became critical to improve our quality of life. I recently worked to revitalize Greenwood Beach, ensure toxic chemicals are not sprayed in our parks and picnic areas, and supported the acquisition of more open space.

I volunteer as Athletic Director at St. Hilary CYO (one of the most successful Basketball and Volleyball programs in Marin) and provided scholarships to families in need. Also, served as Championship Youth Coach in Little League, Basketball, Volleyball, Soccer, and Lacrosse.

I support preserving Tiburon's unique character, reducing traffic, keeping Tiburon fiscally sound, protecting the environment, combating climate change, ensuring emergency preparedness, revitalizing downtown and bringing back family friendly events, including Friday Nights on Main.

I respectfully ask for your vote
