UNREASONABLE HARDSHIP FORM

PURPOSE: The purpose for this form is to request for an unreasonable hardship exception to accessibility requirements where full accessibility cannot be provided along the accessible path of travel to the existing building, facility, or other accessible elements as required by the 2022 California Building Code.

Unreasonable Hardship:

When the enforcing agency finds that compliance with the building standard would make the specific work of the project affected by the building standard infeasible, based on an overall evaluation of the following factors:

- 1. The cost of providing access.*
- 2. The cost of all construction contemplated.*
- 3. The impact of proposed improvements on financial feasibility of the project.*
- 4. The nature of the accessibility which would be gained or lost.*
- 5. The nature of the use of the facility under construction and its availability to persons with disabilities.*

The details of any finding of unreasonable hardship shall be recorded and entered in the files of the enforcing agency.
